

5.A.1

Educational resources made available to faculty, staff, and students focus on the achievement of desired outcomes and learning objectives and are appropriate for and inclusive of all methods of program delivery.

Exhibit 5.A.1.1 — Sample Program Objectives from Catalog (Pharmacy Technician)

 SOUTHWEST TECH	Southwest Technical College Pharmacy Technician FY2026 / 17 Credit Hours
PROGRAM DESCRIPTION <p>The Pharmacy Technician program prepares students to support pharmacists by performing a wide range of practice-related duties for community, institutional, compounding, long-term care, mail-order, and other pharmaceutical settings. Students learn the most common medications, calculate dosages, process prescriptions, bill third-party insurance, learn aseptic techniques, and prepare sterile and non-sterile compounded medications. Students receive extensive hands-on training in the lab area using advanced pharmacy technology.</p>	
Program Objectives <ul style="list-style-type: none"> • Practice personal and interpersonal skills needed in various pharmacy settings. • Demonstrate the pharmacy technician's role in the medication-use process and wellness promotion. • Recall the most utilized drugs by brand and generic name, indications, and interactions. • Solve pharmacy mathematical calculations. • Prepare sterile and non-sterile compounds. 	

Source: [Course Catalog - Pharmacy Technician](#). Additional program and course objectives are available [here](#).

Exhibit 5.A.1.2 — Sample Course Objectives from Catalog (Pharmacy Technician: Sterile Compounding)

Sterile Compounding Sterile Compounding will teach students how to operate in a sterile environment and keep solutions, dilutions, and medications contaminant free. Students will be shown how to use and clean various compounding equipment.	1 Credit
Course Objectives: <ul style="list-style-type: none"> • Explain the functions and limitations of compounding equipment. • Summarize common contaminations and how to prevent them. • Employ the basics of a cleanroom.

Exhibit 5.A.1.10 — Benefits to Students from Dual Enrollment at SUU

ADDENDUM NO. 2 TO THE MEMORANDUM OF UNDERSTANDING

Between

Southern Utah University (also referred to as SUU)
 & Southwest Technical College (also referred to as STECH)

On March 23, 2018, SUU and STECH entered into Memorandum of Understanding (MOU) for the purpose of providing enhanced opportunities for the students of both institutions. The parties now mutually desire and agree to make the following additions. The purpose of addendum No. 2 is to delineate student fees for STECH students participating in the dual enrollment agreement between the two schools.

WHEREAS, parties agree that the dual enrollment partnership between STECH and SUU will begin in Computer Science in the fall of 2018, with STECH students having the option to participate in the dual enrollment agreement;

AND WHEREAS, parties agree that the dual enrollment partnership between STECH and SUU will begin for all other eligible STECH students (those in articulated, certificate programs) in fall semester of 2019;

AND WHEREAS, STECH students opting to participate will be dually admitted, enrolled, and begin to receive SUU credit as they complete STECH courses;

AND WHEREAS, SUU students pay a student fee each semester in support of student activities, which allows them access to such activities and facilities as SPB-sponsored events, the SUU Fitness Center, and Intramural Sports;

AND WHEREAS, Southern Utah University Student Association (SUUSA), the SUU student government oversees the spending of much of the money collected in student fees, and operates activities through the Student Program Bureau (SPB);

AND WHEREAS, STECH students do not pay a similar student fee, and in addition, STECH students pay tuition that is significantly lower than SUU tuition rates;

AND WHEREAS, it is the desire of both parties to facilitate the dual enrollment process with as few additional fees or requirements for STECH students as is possible and equitable;

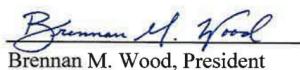

NOW THEREFORE THE PARTIES AGREE TO A TWO-TIERED STUDENT FEE PLAN FOR PARTICIPATING STECH STUDENTS AS FOLLOWS:

Tier 1 - No Student Fee (\$0.00)

- STECH students will have access to the SUU Student Portal, student email account, student transcript, access to all library services, access to SUU advisers, and other student services typically provided when a student is admitted to SUU.

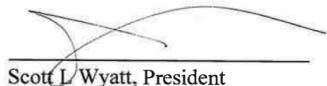

Dated this 1st day of October, 2018

Exhibit 5.A.1.11 — Library Resources Access at Southern Utah University for Southwest Technical College Students

The screenshot shows the homepage of the Gerald R. Sherratt Library at Southern Utah University. The top navigation bar includes links for ADMISSIONS, ACADEMICS, STUDENT LIFE, ABOUT, and APPLY. Below the navigation is a search bar with links for mySUU, Students, Faculty/Staff, Alumni, and Donors. A large banner image of a modern building is visible. The main title "Gerald R. Sherratt Library" is prominently displayed. Below the title is a search bar with placeholder text "Search for books, media, articles, and more" and a red "Search" button. To the left, there's a sidebar with links for Find a Database, Find a Journal, Find a Video, Find a Textbook, Find a Subject Guide, Lost and Found, Interlibrary Loan, Maps, and Hours. Below the sidebar are four thumbnail images: "Ask a Librarian" (a bust of a man), "Study Rooms" (a view of study carrels), "Checkout Desk" (a book return slot in a brick wall), and "Copy Shop" (a printer and copier). Each thumbnail has its corresponding text label below it.

Exhibit 5.A.1.13 — USHE IT Shared Services with Highlights of Software Used by Southwest Technical College

USHE IT Shared Services

For many years, the CIOs and IT Directors within the Utah System of Higher Education (USHE) have actively pursued collaboration on shared services and software contracts. This cooperative approach has significantly improved efficiency and reduced costs across the entire system. Committed to ongoing innovation and financial stewardship, our USHE CIOs and IT Directors continuously explore new opportunities for collaboration to further enhance efficiency and achieve cost savings. The following information outlines our current shared services and contracts, as well as opportunities for future cooperative efforts we are exploring.

The Utah Education & Telehealth Network (UETN)

UETN provides higher education institutions with a robust infrastructure of broadband and broadcast technologies, linking over 2,000 K-12 schools, higher education institutions, public libraries, and telehealth sites across Utah's urban, suburban, and rural areas. Through UETN's centralized services, including maintenance and technical support, institutions avoid the need to hire extensive IT staff, minimizing downtime and ensuring efficient operation. Additionally, UETN negotiates bulk purchasing agreements for internet bandwidth, technology services, and equipment, resulting in lower costs and significant savings for individual institutions. Remarkably, our Utah Higher Education Institutions do not have to pay for internet connectivity because of UETN's comprehensive coverage, eliminating the need for separate solutions. UETN is nationally known and highly regarded across the country for its implementation model.

eduroam

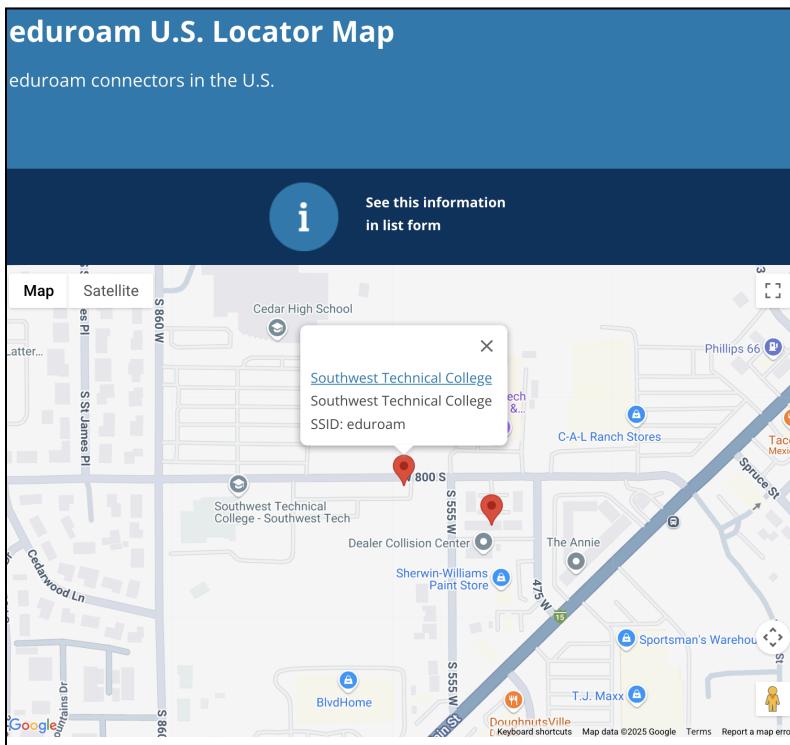

Your new way to Wi-Fi

Have you ever wished that you could just walk into a building and have your Wi-Fi work? No sign-ins, no dead zones, no user agreements—just active Wi-Fi that you don't have to think about.

While it's not a reality everywhere, we're a lot closer than we used to be, thanks to eduroam. eduroam allows students, researchers, teachers and staff from Utah college and K-12 schools to securely connect to the internet across campuses, districts and schools by simply opening their computing device.

And it doesn't just work on your home campus! It works on any campus you visit, as well as many public libraries, some Utah Department of Transportation sites and other public locations around the world. You don't have to sign in when you visit any of them—once you've activated eduroam, it just works in all those locations.

Exhibit 5.A.1.17 — Cengage Unlimited Institutional Access

The screenshot shows the Cengage Unlimited Institutional Access landing page. At the top, there's a navigation bar with the Cengage logo, a dropdown menu labeled "Institutional Leader", and search and menu icons. Below the header, a breadcrumb trail reads "Cengage > Institutions > Unlimited". The main section features a large image of a smiling man wearing glasses and a blue striped shirt. To his left, the text "Cengage Unlimited for Institutions" is displayed in large white font, with the subtitle "Powering success for students and faculty from day one." underneath. A yellow "CONTACT US" button is visible. Below this, a white box contains the text "Affordability, access and flexibility, all right here". At the bottom of the page, a box titled "CENGAGE SALES AGREEMENT" contains a table with two rows: "Customer Name" (Southwest Technical) and "Effective Date" (07/01/2024). A paragraph of fine print follows, detailing the terms of the agreement between Cengage Learning, Inc. and the customer.

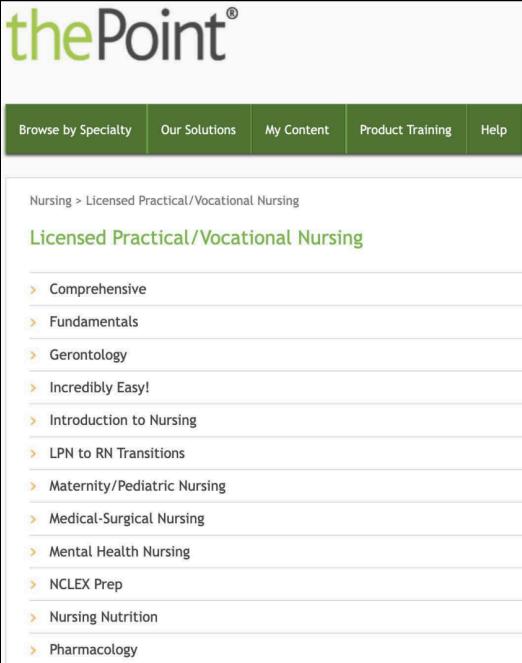

Exhibit 5.A.1.19 — CompTIA TestOut (Information Technology)

The screenshot shows the CompTIA TestOut Linux Pro software interface. The title bar reads "CompTIA TestOut Linux Pro English 6.0". On the left, there's a sidebar with "Home", "Outline", and "Search" options. The main content area has a blue background with various icons related to technology and computing. The title "Section 0.1" and subtitle "Course Introduction" are displayed. Below this, text states: "This course is designed to prepare you to pass the TestOut Linux Pro and CompTIA Linux+ Certifications. As you study this section, answer the following questions: • What are the course prerequisites? • Which major topics are covered in the course? • Which certifications does this course prepare you for?". A section titled "Course Prerequisites" follows, with text: "Before you take this course, you should have a basic understanding of computers. You should have: • Computer systems and networking knowledge • 9 to 12 months IT experience". It also notes: "Although not a prerequisite, it's helpful if you've had some basic Linux exposure in both command line and GUI environments. It's also helpful to have some additional certifications. Optional certifications could include the: [redacted]".
