3/14/2024

Safety Meeting

Attendance: Ryan Fisher Cory Estes Gail Goodman Wade Esplin Scott Leavitt James Mullenau
Karyn Keanaaina Jeff Swift Timothy Hatch Cyndie Tracy

Notes

- Questions or Comments from the last meeting?
 - None
- **Annual Review of Programs**
 - **Health and Safety Plan Update:**
 - Removal of first responders list and verbiage changes
 - Neil had our verbiage reviewed by Graduate Students for their program at SUU and they suggested some changes. Not all suggestions were used.
 - They suggested adding a link to the Annual Security Report on our site.
 - Under "safety concerns" they wanted to add a section on what the specific roles of each employee would be but that did not seem conducive and would paint each employee into a "box" of abilities and responsibilities.
 - Other minor changes were recommended. We are not mandated to follow the Safe Schools policy because we are not k-12 but we try to do as much as possible because we do have highschool students here.
 - Sexual Misconduct verbiage change
 - to reference the section in the clery act and call the local police will be.
 - Changed "interim remedies" to "support measures".
 - Should contact title IX coordinator if sexual misconduct is experienced while at STech. If the conduct is criminalized they should contact the police first and then contact us.
 - Recommended to change the capitalization of "I LOVE YOU GUYS" foundation
 - We chose not to add "for Crisis Response" that they recommended because the verbiage would require too many revisions if anything needed to be changed.
 - They suggested to use "prescription" rather than RX
 - The external version has limited information. We have more detailed information in our employee version.
 - Took out DEI because it is no longer applicable in Utah.
 - Added in first aid verbiage: added that employees with medical training may respond to give basic medical first aid for life saving measures. Zero feedback on that verbiage change. Gail recommended removing "with medical training" so any employee may help.

SAFETY & FLEET COMMITTEE MEETING – September 14, 2023

Attendance:

Cory Estes, Wade Esplin, Chris Durand, Cyndie Tracy, Gail Goodman, Neal Mason, Ryan Fisher, Sam McNulty, Tessa Douglas, Tim Hatch, Whitney Benzon, Joseph Dec, James Mullenau, Clarissa Crosby, Scott Leavitt, Tessa Douglas

Review Minutes – June 8, 2023

Safety Programs

- Health & Safety Plan - Update
 - Section 7.3 - Lockdown Procedures
 - Front Desk Quick Guide
 - Section 8 - USHE Rule 262
 - Cory- Lockdown procedures were the only thing that have changed, Level 1,2,3 was replaced by this new protocol
 - Gail- it is so much clearer because all of the school are on this
 - Cory all law enforcement on the same terms, emergency quick guide was updated at front desk, added additional page about schools or school district so its easier to make announcements and directly tell those programs, it worked really well. We updated the in house response list of people, this has been updated with the quick guide with cell phones.
 - Cory- USHE gave us a list of ten items, put in the annual security report. Its very easy to get fines by clery, its much cleaner putting in the annual security report. I changed the H&S plan and added it to section 8. USHE goes thru it to make sure all the links are correct. Do I need to go thru it? Its in google drive if you want to look at it. USHE wants a list of things weve accomplished in relation to campus safety, and a list of goals for the next 24 months. These are all available in the H&S plan.

Exhibit 6.B.3.3 — 2022 Safety Meeting Excerpt of Annual Review of Health and Safety Plan**SAFETY COMMITTEE MEETING – JUNE 9, 2022**

Attendance: Cory Estes, Joey Dec, Brenda Pehrson, Gail Goodman, Layne Deeter, Paul Thornley, Wade Esplin, Chris Durand, James Mullenau, Scott Leavitt, Julie Graham

Review Minutes – March 10, 2022

☐ Committee: Approve minutes

Safety Programs

- Health & Safety Plan:
 - Plan Revisions & Updates – Final
 - Revisions to the Health and Safety Plan - sections presented to the committee:
 - Persons with Disabilities
 - Student Crisis Resources
 - ☐ James: I am planning on presenting a task force for the campus mainly for mental well being amongst other behaviors. This section may need to be updated if that goes thru.
 - Emergency Action Plan
 - Alerting
 - General Evacuation
 - Lockdown Procedures (Discussion on Quick Guides)
 - ☐ Cory: Level 3 Lockdown will be adjusted in not pulling the pull switch in an emergency. This would lock law enforcement and other aid out of the building.
 - Active Assailant
 - Fire Emergencies
 - Explosion
 - Earthquake
 - ☐ Scott: You may want to change verbiage on the section “What Not to do” during an Earthquake. It is a double negative and may be confusing to people when they read it.
 - ☐ Cory: Good catch, I will make that change.
