Technical Infrastructure Plan

Scope, evaluation, and stakeholders

The Director of Information Technology (IT) oversees safety and security, regulatory compliance, and general maintenance for all technical resources at the College. The Information Technology team provides support for all technical systems maintenance, repairs, and improvements.

The College IT Committee will annually evaluate the Technical Infrastructure Plan and revise as necessary. The annual evaluation is intended to ensure the plan's purpose is met and the associated resources and infrastructure are functioning as intended. This plan will be made available on Southwest Technical College's website.

Changes to the plan are reviewed and approved by the President's Cabinet, which consists of administration, faculty, and staff.

5 | Page

Kanab, on the other hand, is directly maintained by Southwest Technical College IT, including regular site visits, lab updates, network maintenance, and cybersecurity.

Technical Infrastructure Plan

Plan Coverage

Buildings

Southwest Technical College currently owns two buildings at the main campus in Cedar City, Utah, has Memoranda of Understanding with Utah State University and Kane County School District for sharing space at the instructional service center campus in Kanab, Utah, and maintains agreements with Snow College and Beaver School District to utilize space at instructional service centers in Richfield and Beaver, Utah, respectively.

Scope and Evaluation

The Director of Information Technology (IT) oversees safety and security, regulatory compliance, and general maintenance for all technical resources at the College. The Information Technology team provides support for all technical systems maintenance, repairs, and improvements.

The College IT Committee will annually evaluate the Technical Infrastructure Plan and revise as necessary. The annual evaluation is intended to ensure the plan's purpose is met and the associated resources and infrastructure are functioning as intended. This plan will be made available on Southwest Technical College's website.

Personnel

Southwest Technical College employs a full team of information technology personnel. The team includes the following:

- Director of Information Technology
- Information Technology Specialist

Cyber-Security Specialist

Changes to the plan are reviewed and approved by the President's Cabinet, which consists of administration, faculty, and staff.

Operation, Maintenance, and Upgrades Adequacy, improvements, and protection of the technical infrastructure

The information technology personnel have the knowledge, expertise, and resources to ensure
