

0.A.1 Worksheet B.3

*The institution satisfies each eligibility requirement for a Candidate of Accreditation. Institutions with non-main campus sites (branches, extensions, extended classrooms, instructional service centers) must meet additional eligibility requirements applicable to those locations. Institutions seeking candidate status with the Commission that have non-main campus sites must comply with the following additional eligibility requirements: **Demonstrate that duplicate records on personnel, financial matters, student attendance, and educational progress for all non-main campus sites are kept at the main campus. (NOTE: Duplicate records can be maintained electronically on servers housed at the main campus or via electronic cloud-based system.)***

Note: Southwest Technical College uses a cloud-based student information system called Northstar to maintain records across all instructional service centers and at its main campus.

Exhibit 0.A.1 Worksheet B.3.1 — Northstar Support and Development MOU

**University Information Technology (UIT) Northstar Support and Development
Memorandum of Understanding**

This Memorandum of Understanding (MOU) is by and between the University Information Technology (UIT) and Southwest Technical College ("Southwest Tech").

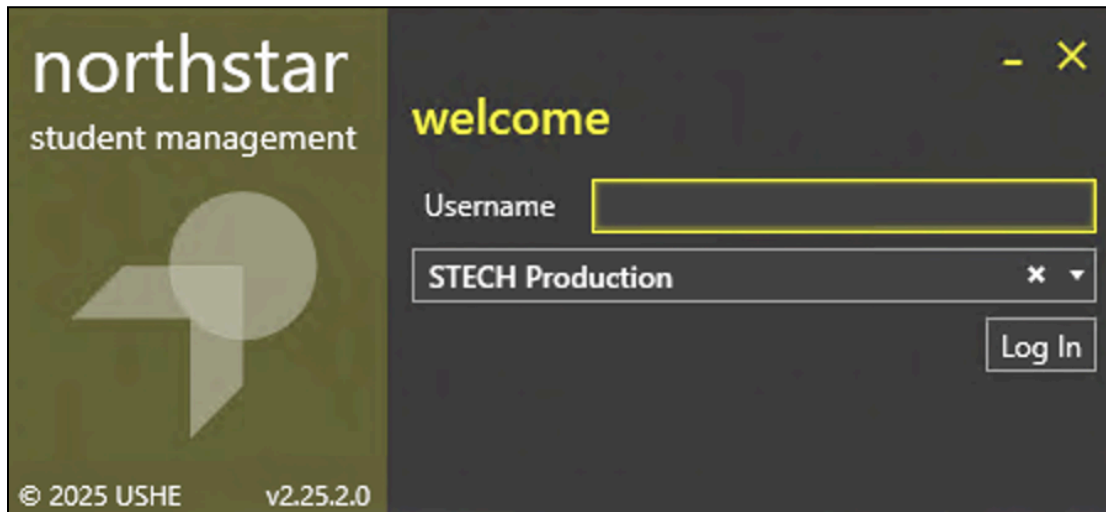

Overview

Northstar is a Student Information System (SIS) that is developed and maintained by a dedicated product team within the University Information Technology (UIT) department at the University of Utah. USHE owns the intellectual property rights for the Northstar system. An existing Memorandum of Understanding between USHE and UIT (the "UIT/USHE MOU") details the specific responsibilities pertaining to licensing, funding, support, and development of the Northstar product and its dedicated support and development team. This MOU defines the roles and responsibilities of USHE and Southwest Tech with respect to Southwest Tech's use of Northstar as their SIS.

All support and development for the Northstar product will be performed and managed within UIT according to the terms of the UIT/USHE MOU. In general, such support and development tracks UIT departmental software development lifecycle (SDLC) processes. In an effort to provide a consistent data platform with agile reporting capabilities, UIT will focus on the following core components and functionality:

- Demographics: Management of student data including student IDs and update histories
- Curriculum: Flexible, competency-based courses integrated with Canvas LMS
- Enrollment and Scheduling: Open Entry program which allow students to start and stop at any time
- Attendance: Allows for custom student schedules and clock-ins using student IDs
- Tuition and Fees: Extensive tuition and fee structure capabilities supporting affordable hourly tuition rates
- Reporting: Convenient and consistent federal, state, and accreditation reporting
- Integrations: Canvas, G-Suite, Authorize.NET, Tableau, and more
- Web Portal: Online website for students, sponsors, and staff, to manage accounts
- Finance: accounting ledgers, invoices, process payments, payment history, payment plans, financial reporting (EOD, 1098T)
- General: Training documents, manuals, role-based functionality, mass emailing

Exhibit 0.A.1 Worksheet B.3.2 — Northstar SIS Login

The screenshot shows the Northstar Student Management login window. On the left, a green sidebar contains the 'northstar student management' logo and a stylized geometric graphic. The main dark gray area is titled 'welcome' in yellow. It features a 'Username' label above a text input field, a dropdown menu currently showing 'STECH Production' with a close (x) and dropdown arrow icon, and a 'Log In' button. The bottom left of the window displays '© 2025 USHE' and 'v2.25.2.0'. Standard window controls (minimize, maximize, close) are visible in the top right corner.

Exhibit 0.A.1 Worksheet B.3.4 — Student Demographic Page in Northstar SIS

The screenshot shows the Northstar SIS Student Demographic Page. The interface includes a top navigation bar with 'Demographics' and 'Notifications (Beta)'. A left sidebar contains a 'Can Login' section with a login button and a list of demographic fields. The main content area is a form for entering student information, including fields for personal information (Name, Birthdate, Grade, etc.), contact information (Email, Phone, Address), and academic information (HS Graduation Date, etc.). The bottom section is for 'Previous Notes'.

Degrees and Certificates Awarded
 Certificate of Completion - C1Y in Automotive Technician (1384) awarded on 09/19/2024

Courses Completed
 Letter grades are provided where specifically required by industry, licensure, etc. Where no letter grade is listed, "M" denotes Mastery in those competencies defined by business and industry as required for entry-level employment. Audited courses ("V") are those for which no record of competencies is maintained nor attested.
